# Functioning of the organisation

## Our structure

### Network Organisation

Wetlands International is an independent global network organisation of 21 offices which share the name and brand “Wetlands International”, safeguard one reputation, implement a joint Strategic Intent and adhere to a common set of organisational policies.

### Legal basis

Several offices, including the Global Office based in Ede-Wageningen, the Netherlands (registered as *Foundation Wetlands International*), have an independent legal status in their country of operation. Such Offices usually have a local Board, comprised of (un-paid) members with complementary skills, experience and contacts, that are well-placed to represent country and/or regional interests. Other offices are registered as sub-offices of a Regional Office, operate under hosting agreements with other organizations, or are in the process of becoming independent legal entities.

Offices are bound to the global network organisation by an internal agreement that stipulates the requirements an entity needs to comply with in order to be part of the Wetlands International network. The Head of Office is hired by its local board which advises and supports the Head on opportunities and risks in the country or region. Depending on the local legal status, the Board (or membership) approves the Office’s annual accounts and other official documents prepared by the Office Head and team.

### Network Management

A Global Board, consisting of the Wetlands International CEO and the Heads of Offices, is responsible for multi-year strategy, priority setting and decisions on thematic, programmatic and institutional issues.

The Global Board delegates regular decision-making to the Network Management Team that oversees common policies, tools and guidelines, annual planning and decisions about programmatic priorities in line with the Strategic Intent. Members of the Network Management Team are the CEO and 8 staff drawn from among Office Heads and key Global Office functions.

The Global Board meets annually and the Network Management Team meets every 2 months on average.

### Global Office

The Global Office, based in the Netherlands and led by the CEO, has a representation, communications, technical support and fundraising function for the Network and is

responsible for keeping the daily work of the Network aligned with decisions taken by the Network Management Team and Global Board.

The CEO, appointed by the Global Office's Supervisory Council (see Governance below), has a key leadership function in that s/he ensures the consistency of direction and decision making across the entire Network and its various entities.

External accountants annually audit the financial situation of the Global Office and evaluate the organisational set up, processes and risks. The Supervisory Council ensures that the CEO acts on advice provided by the accountants in their annual Management Letter.

The Global Office has its own terms and conditions of employment and salary scale. Salaries are benchmarked every 4 years, to compare salaries with similar not for profit organisations. The remuneration of the CEO is part of that system.

## Governance

Wetlands International has two complementary forms of governance.

### Association of Members

Wetlands International has 37 member organisations, governmental and non-governmental (see page 59 for a list of members), that form together the Association Wetlands International. The main governance function of the Association is to adopt the organization's Strategic Intent. This is the organization's 10 year global strategy that is reviewed and renewed every five years in consultation with members and other stakeholders. Members of the Association pay membership fees that contribute to implementation of the strategy and contribute to strategic investments in the organisation. The Association has a Board (see Supervisory Council below) that oversees the management of the Association and the use of its resources in line with its objectives.

### Supervisory Council

Wetlands International is governed by an unpaid [Supervisory Council](#)<sup>1</sup> of nine members who also constitute the **Board of the Association**. Members of the Supervisory Council are appointed from a range of professional backgrounds relevant to the functioning of Wetlands International.

The current composition of the Supervisory Council (and Association Board) is provided on page 56.

The main responsibilities of the Supervisory Council are to:

- Approve key decisions, proposed by the CEO and Management Team, relating to the Annual Review and (externally audited) Annual Accounts, the organization's Work Plan, Budget and its Strategic Partnerships.

---

<sup>1</sup> The tasks the Supervisory Council are defined in the Articles of Association of the Foundation Wetlands International

- Oversee the management of risks and opportunities.
- Monitor progress and developments towards the goals of the Strategic Intent
- Assess the performance of the CEO
- Advise the CEO and Management Team on strategic issues and institutional development.

## Local Boards

In cases where Offices have an independent legal status, they have a Board that is set-up in accordance with Wetlands International criteria and in line with the local legal setting. To ensure integrity and alignment with the strategy and organisational interests, the CEO (or her representative), is a member of the local board.

## Achieving our objectives

The 10 year Strategic Intent provides direction for the Wetlands International network. The Strategic Intent is reviewed every 5 years and adjusted in consultation with members and stakeholders.

All Offices contribute to the overall goals and stream strategies in line with the local context where they operate and the expertise of their team. Their contribution is set-out in regional and national strategies.

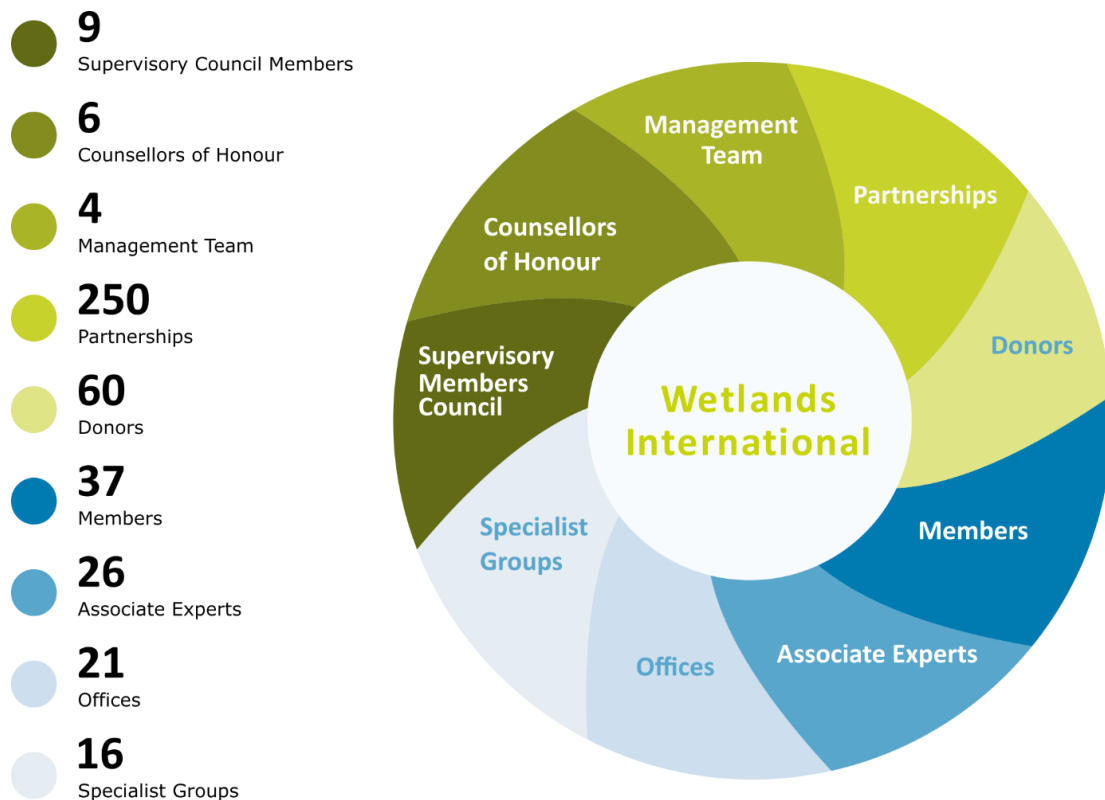

Each year Wetlands International translates these strategic priorities into an annual workplan and budget that are approved by the Supervisory Council.

Results that contribute to the ambitions of the Strategic Intent are delivered through programmes and projects that vary in length from several months to 10 years. Our Project List provides an overview of the main international projects implemented in 2018. Funding sources for these projects is obtained largely from governmental programmes, private foundations as well as from member contributions.

Implementation of larger projects usually involves cooperation among several Wetlands International Offices and a range of local partners organizations and experts. In its approach Wetlands International aims to build the capacity of local civil society organizations to advocate for changes in policy and practice among government agencies and companies. This helps to ensure the sustainability of results achieved for the conservation, restoration and effective management of wetlands.

## Engaging stakeholders

The strength of the Wetlands International network is more than the sum-total of its Offices. Through working with influential partners, donors and members and by connecting with network of expertise, we can achieve more results towards our Strategic intent. Members, in particular, provide long-term support and strategic guidance to the organization and are engaged through an annual members' meeting and via regular progress updates.

As well as supporting civil society, Wetlands International work in partnership with governmental agencies, foundations and companies to contribute to our Strategic Intent. Our partnership policy lays down principles that guide why and how relationships are developed and managed. The basis of this is working on an equal basis to achieve mutually agreed objectives, with distinct contributions from each partner. Partnerships with international companies are approved by the Supervisory Council to ensure the adherence with the policy.

The development of credible wetlands knowledge, together with universities and research institutes, and its use in advocacy and demonstration projects is an important way in which wetlands international delivers impact. In the past year we contributed to a wide range of reports, methodologies and tools that we aim to make freely available via our website, and by publicising them at relevant events.

Wetlands International's communications are guided by its communications policy and supported through a dedicated team in our Global Office. This team is also responsible for our Global Brand strategy which guides how we present the organization world-wide and ensure that we speak with one voice.

The integrity of our organizational behaviour is enshrined in our [Code of Conduct](#) which is introduced to all staff as part of their induction process. There were no recorded breaches in 2018.

Despite our best endeavours we also make mistakes. As well as recognizing and learning from these, Wetlands International has also established an official [complaints procedure](#) which is available on the website. There is also an email address [post@wetlands.org](mailto:post@wetlands.org) for general enquiries by our stakeholders.

## Corporate Social Responsibility

Wetlands International strives to act in her daily operations in a sustainable and socially responsible way. In our office in the Netherlands, we stimulate our employees to use public transport and all flights booked are compensated for their CO<sub>2</sub> emission (387 tonnes in 2018).

We further work to reduce our ecological footprint. We publish as much as possible our communication materials online and only essential stationary material is printed. We increasingly use e-meetings and online seminars. Most of our office supplies such as coffee, tea and paper are organic, recycled and fair trade. We have an automatic energy saving light system. Our office waste is separated for recycling purposes.

# Resourcing the Global Organisation

The main source of income of Wetlands International for 2018 came from project funding. The total Wetlands International global network project income is based on the information obtained from the network and estimates made. The total network project income of 2018 amounted to 12,2 M EUR (11,2 M EUR exclusive National Postcode Lottery, see project list). In the non-project funding, member countries, member NGOs, and one-off supporters contributed 0,86M in addition of the 1M grant of the Dutch National Postcode Lottery.

The list of projects 2018 gives an overview of all projects implemented throughout the year, with details on the amounts funded, the project period, the donor name and types, which of the five streams of our Strategic Intent the project contributes to, as well as the Wetlands International offices that participated in project implementation.

## Our sources of income and expenditures across the five streams

Governments are our major source of funding (60%), with the Dutch and German governments responsible for 38% and 14% of our project income respectively. Trusts, foundations and NGOs account for 27 % of our donors whereas we received 8% of our income from companies.

Our work focusses on the issues where wetlands matter the most to people and nature. To achieve our goals (as set out in our strategic intent 2015-2025) we organise, develop and implement our programmes in five streams of work:

Healthy Wetland Nature, Blue Lifelines in the Desert, Water Stores from Mountains to Sea, Peatland Treasures, Vibrant Coasts & Deltas.

- Healthy Wetland Nature
- Blue Lifelines
- Water Stores
- Coasts and Deltas
- Peatland Treasures

- Dutch government
- German government
- Other government
- Association Wetlands International

## Increased resource development by network offices

Increasingly, our programmes are large scale and long-term, involving several of our offices. Global Office and Network Offices combine efforts in resource development and increasingly network offices are directly financed by donors. Until 2016, network offices raised 25% or less of our project income. We expect the increase of the network to continue in 2019 and beyond. This development allows us to bring management and donor coordination close to the action and impact, while the Global Office provides support where required.

Projects that are managed through the Global Office, are mostly implemented by our Network Offices and members, affiliated scientific institutions, partners and experts. A significant number of these projects are subcontracted to these offices and affiliates.

## Our funding model to leverage investment

Using very little flexible funds, we are able to bring actors together and develop small pilot projects, which in turn leverage larger programmes supported by finances of partners and additional donors. Our program results allow us to leverage larger scale public and private sector investment in wetlands.

# Foundation Wetlands International

## Annual Accounts 2018

## Introduction

Since the Foundation Wetlands International obtained the CBF<sup>2</sup> quality seal in 2011, it is obliged to apply the guideline of VFI<sup>3</sup> and report under 'Richtlijn 650 voor Kosten Beheer en Administratie'. This means that expenses are based on commitments made (contracts signed) during the reported year.

Although the turnover at 8.6M was almost equal to 2017 and the latest forecast, it was significantly below budget (10M). Based on a research into the reasons behind the gap several factors

The total revenue only partly reflects the actual level of activities and outcomes for the organisation. The project activities in 2018 – as measured by expenses during the year (see table *Realised total expenditure on project activities*) differ 1,0M from 2017 mainly because of lower subcontract expensed. In general, the realised total expenses on project activities since 2014 indicate a stabilising level of activity and investment over the years. The number of FTE's in 2018 were 30.9 and almost equal the FTE's of 2018 (30.8). Based on RJ 650-2016 the accounts show the total expenses allocated to each of the five organisation's objectives ('streams'). In total 79.6 % of the total expenses was spent on these objectives (In 2017 this was 82.3 %).

The 2018 result of Wetlands International is traditionally influenced by incidental effects of not always predictably claimable or non-claimable project costs during the start-up of projects and in the end phase. This is inherent to the nature of an organisation depending largely on project funding and on specific donor regulations. The positive but modest 2018 underlines this. This positive result has been realised mainly through a positive result on projects. As a part to the risk management policy at Wetlands International a risk register is updated at every reporting cycle including mitigating measures and discussed with the Supervisory Council. The top 3 risks are specified in the table below.

	<b>Risk description</b>	<b>Impact on organisation in 2018</b>	<b>Potential quantitative impact</b>	<b>Mitigating measures</b>
<b>1)</b>	Member dissatisfaction	Wetlands International has more than 40 Governmental and NGO members. They are a key constituency that help advance our Strategic Intent in the countries where they operate. They also pay membership fees that support key work of the organization.	Member engagement affect the speed at which we can achieve results.	Engage with members in the context of Ramsar Convention meetings. Strengthen relation management through a dedicated Membership Officer. Organise regional events for members and stakeholders in 2020 .
<b>2)</b>	Non-compliance with donor contracts	Each donor has their own rules and procedures that need to be followed, especially on accounting for spending. If these are not fully understood then this leads to double work, delays and cost overruns.	On large or multi-year projects this can lead to expenses being disallowed and consequent financial losses.	Training of staff in different donor requirements. Regular project reporting by project managers and fin/admin staff.
<b>3)</b>	Subcontracts and reporting are of insufficient quality	Work specifications, budgets and reporting are specified in contracts. If these are not monitored systematically this causes delays, overspending and reduced credibility.	Depending on the project size this can affect the final balance of Office budgets.	Regular and systematic monitoring by Project Managers and Management Team. Reviewing and applying lessons learned.

<sup>2</sup> Central Bureau for Fundraising

<sup>3</sup> Dutch Association of Fundraising Institutions (Vereniging Fondsenwervende Instellingen)

Again, substantial investments in fundraising were made to acquire new projects throughout Wetlands International. The 200K costs of fundraising were slightly compared to the 192K in 2017.

The ratio between Cost of Management and Administration and total expenses realised was 18% (16% 2017; 16% 2018 budgeted<sup>4</sup>).

Income is specified in accordance with the RJ 650 – 2018 standard, per back donor. The income of Wetlands International consists for the largest part of income from Government grants (62%). The Lottery 12%, and income from Companies, Other Non-profit organisations and Affiliated non-profit organisations are (all three) around 26% of the total income.

During 2018 new contracts and extension of earlier acquired contracts were signed. The list of projects 2018 on page 39 includes all projects that started in 2018.

---

<sup>4</sup> The generic CBF norm for management and administration costs is 10%

## Explanatory Notes to the Balance sheet As per 31 December (in Euros)

### (1) Tangible fixed assets

	Furniture	Computers	Equipment	Total
Balance 1 January 2018				
Purchase value	532.564	301.111	22.183	855.858
Accumulated depreciation	531.973	228.877	14.650	775.499
Bookvalue 1-1-2018	<u>591</u>	<u>72.234</u>	<u>7.533</u>	<u>80.359</u>
Investments	0	17.891	4.036	21.927
Desinvestments purchase value	0	0	0	0
Desinvestments Acc. Depreciation	0	0	0	0
Depreciation 2018	292	43.836	1.265	45.393
Balance 31 December 2018				
Purchase value	532.564	319.002	26.219	877.785
Accumulated depreciation	532.264	272.713	15.915	820.892
Bookvalue 31-12-2018	<u>300</u>	<u>46.289</u>	<u>10.304</u>	<u>56.893</u>

Fixed assets are used for office operations. The other assets are largely for direct use for the foundation's goals and to a small extent for office operations. The Foundation does not hold any shares, bonds or other assets for reasons of financial investment.

The investment in computers relates to replacement of obsolete hardware (desktops & laptops) and extension of server capacity.

The tangible fixed assets are valued on the basis of the historic costs price or acquisition value, decreased by linear depreciation on the expected term. For office equipment and investments on the building the depreciation is 20 percent per period, while for hardware and software the depreciation is 33 or 20% percent per period depending on expected lifecycle. Fixed assets financed by projects and in use by Wetlands International staff are activated starting financial year 2014

The counter value of these assets is accounted for under 'subsidized fixed assets' which are decreased in line with the depreciation of the assets.

**(2) Debtors and other receivables**

	31-12-2018	31-12-2017
Debtors	37.016	109.525
Doubtful debtors	0	-21.466
Total debtors	37.016	88.058
Project funds to be received	2.035.861	2.791.553
Current Account with Association Wetlands International	0	0
Subcontractor receivables	18.491	180.581
Short term loans (provided)	0	30.000
Taxation & Social security	-466	16.165
Other receivables	97.500	180.421
Total	<u>2.188.401,91</u>	<u>3.286.778,82</u>

A short term loan repayable before 1-7-2017 was granted to Wetlands International European Association in fiscal year 2015. Since the intension was to convert this loan to a donation a provision for the same amount was formed. In 2018 the conversion took place. Since UEA received the ANBI status in 2018 the donation to the EUA has no tax implications.

**(3) Cash & banks**

	31-12-2018	31-12-2017
Cash	3.422	4.530

Donation reserved for next year	0	0
Other short term debts	62.415	200.880
	<u>5.547.783</u>	<u>4.284.474</u>

Projects to be executed relates to funds received from donors for projects still to be executed  
Subcontractor commitments are contracted amounts due to subcontractors for the execution of projects  
There is no interest on the current account, neither any securities of repayment obligations related  
Holiday allowance: this represents the reservation of holiday allowance built up in 2017 and which is to be paid in May 2018  
Unused annual leave: the outstanding liability regarding unused holidays of staff

**Explanatory Notes to the Statement of Income and Expenditure (in Euros)****(9) Income from Governmental grants**

	31-12-2018	31-12-2017
Project income from governmental institutions	5.320.664	6.506.703
Total	<u>5.320.664</u>	<u>6.506.703</u>

The income from Governmental grants includes the Partners for Resilience project.  
At year closure a discussion is taking place with the lead partner, the Netherlands Red Cross (NLRC), on the project rate calculation by Wetlands International.  
Since the calculation is based on cost recovery only, Wetlands International is confident that the final outcome of the discussion will not lead to alterations of the project income. We will therefore continue and intensify dialogue with NLRC and/or with the backdonor, the Directie Generaal Internationale Samenwerking (DGIS).  
In addition we will mitigate the ongoing risk by additional management measures.  
The total of project costs under discussion amount to € 150,000 (2016, 2017 and 2018).

**(10) Income from affiliated non-profit organisations**

	31-12-2018	31-12-2017
Income from Wetlands International Association	440.573	586.042
Income from other affiliated non-profit organisations	95.723	25.111
Total	<u>536.296</u>	<u>611.154</u>

The income from affiliated non-profit organisations consists mainly of the contribution from the Association Wetlands International.  
This contribution can be specified in the table below.

**Contribution from Association Wetlands International**

	31-12-2018	31-12-2017
Organisation subsidy	325.573	469.042
Subsidy biodiversity projects	100.000	100.000
Contribution to GMM meeting costs	15.000	17.000
Total received from Association	<u>440.573</u>	<u>586.042</u>

**(11) Total of private and governmental income**

	31-12-2018	31-12-2017
Annual cost contribution Wetlands International Association (structural)	200.000	200.000
Project and other income (incidental)	8.393.176	8.245.240
Total	<u>8.593.176</u>	<u>8.445.240</u>

**Specification main governmental projects (55% of total income 2018)**

Project	Duration		Project income	Project income
	Start	End	Total	2018
Partners for Resilience	2015	2020	10.049.739	2.115.831
Watershed	2016	2020	3.947.643	811.884
Climate Resilient Flyways	2015	2020	3.269.730	1.197.728
Building with Nature	2016	2020	3.066.118	597.226

PFR/Watershed: Project income 2018 not yet approved by DGIS

Climate Resilient Flyways & Building with Nature: Total project income to be approved by donor (international Climate Initiative) at end of project

**Employment capacity & production**

	31-12-2018	31-12-2017
Total staff (FTE)	<u>30,9</u>	<u>30,8</u>
Staff rates claimed on external projects (production)		
Own staff	2.263.648	2.284.137
Consultants	109.500	210.140
	<u>2.373.147</u>	<u>2.494.277</u>

**Staff costs**

	31-12-2018	31-12-2017
Wages & salaries	1.755.785	1.748.691

Salaries are in accordance with the categorisation based on the 'Regeling belonging goede doelen organisaties'.  
The categorisation was part of the CBF application 2018 (\* based on Total income 2017 in table above).

Function group	BSD score	Maximum annual salary
J.C.M. Reinartz	G	392
F.J. Madgwick	I	451

The Supervisory Board has determined the remuneration policy, the level of the executive remuneration and the level of other remuneration components. The policy is updated periodically and follows the Remuneration Regulation for Directors of Charity Organizations (see [www.goededoelennederland.nl](http://www.goededoelennederland.nl)).

The BSD score has been approved by the Supervisory Board

The annual salaries include taxed allowances / additions, the employer's pension contribution, the pension compensation and the other long-term benefits remained within the maximum annual salary amount.

The taxed allowances / additions, the employer's contribution to the pension and the other long-term benefits were also in reasonable proportion to the annual income.

**Budget 2019**

	<b>2019</b>	
<b>Income</b>		
- Income from private parties	2.583	
- Income from corporate organisations	278.164	
- Income from Loteries	1.137.359

Wetlands International works on 5 themes. As regards the accounting of non-direct support cost, including depreciation, Wetlands International applies the guideline of VFI: 'Aanbeveling Toepassing van Richtlijn 650 voor Kosten Beheer en Administratie'. Indirect costs are attributed to the 5 themes pro rata of the staff time spent.

**Realised total expenditure on project activities**

The Annual Accounts are presented according to the CBF quality seal obliged RJ 650 regulations which are based on commitments made (contracts with subcontractors signed) during the reported year while not looking at the work really implemented. As a result the total turnover in the the years reported might differ substantially: 8.6M in 2018 compared to 8.4M in 2017, 7.1M in 2016 and 2015 and 4.7M in 2014. When looking at project activities, see below, – as measured by expenses made during the year -, we see a different picture. The realised total expenses on project activities in 2018 of EUR 6.2M (2017 7.2M, 2016 7.3M, 2015 7.8M, 2014 7.6M) show a more stable activity over the years.

	<b>31-12-2018</b>	<b>31-12-2017</b>	<b>31-12-2016</b>	<b>31-12-2015</b>	<b>31-12-2014</b>

# General Accounting Principles

The financial statements are prepared according to the following principles:

## General

The annual accounts 2018 have been drawn up according to generally accepted accounting principles in the Netherlands and RJ 650-2016 for Fundraising organisations. Assets and liabilities in the balance sheet are valued at nominal value. Cash and bank balances are freely disposable, unless stated otherwise.

Transactions in foreign currencies are recorded using the rate at the time of the transaction. Assets and liabilities denominated in foreign currency are converted at the exchange rate at the year-end. Income and expenditure are accounted for in the year the obligations are related to. Costs are determined in accordance with the accounting policies applied to the balance sheet. The accounting of project commitments is in full compliance with RJ650 regulations since 2012. Consequently, the total value of a contract with a subcontractor is charged as project cost in the reporting year the contract is entered into. Loss on projects is taken upon recognition. At the end of the related project period all projects are settled against actual costs in accordance with the contract of the related donor. Accounting principles for the different elements of balance sheet and statement of income and expenditure are explained in the notes.

## Provisions

There is no longer a provision for the EUA loan since it was fully written off in 2018.

## Income

Almost all income is related to projects which are funded by external donors. The conditions for funding are laid down in project specified donor agreements. This income can therefore be characterized as incidental. The project income recognised for work completed, (sub-)contracts engaged in and services delivered during the fiscal year.

The annual contribution of Wetlands International Association to the organisational cost are categorised as structural income.

## Project costs

These represent the direct project costs incurred in respect of project income recognised.

### Deferred project income

This relates to project advances received or to be received that are deferred from an income statement perspective, taking into account any necessary provision for losses on projects.

## Joint operating agreements with local Wetlands organisations

In relation to the execution of global/international projects financed by its donors, the Dutch based Foundation Wetlands International seeks cooperation with local Wetlands organisations. In this case Foundation Wetlands International acts as the main contractor of a donor, cash amounts are transferred (under the terms and conditions of the donor) by the Foundation towards these local Wetlands organisations. This cash flow and all related project income and expenses are fully recorded in the annual accounts of the Wetlands International Foundation, including the expenses paid by the local Wetlands organisations. The aforementioned local Wetlands organisations also have their own locally obtained and financed activities, without involvement of the Dutch Foundation. Foundation Wetlands International has no legal obligations regarding these local projects obtained by the local Wetlands organisations. From a practical point of view the Dutch based Foundation Wetlands International can be qualified as the 'franchisor' of the local Wetlands organisations (the 'franchisees').

## Use of estimations

During the process of compiling the annual accounts the management of the organisation makes, in accordance with general accepted accounting policies, some estimations and assumptions which are contributory to the included amounts. The actual results can deviate from these estimations.

## Pensions

Pension obligations are valued according to the "valuation to pension fund approach". This approach accounts for the contribution payable to the pension provider as an expense in the statement of revenue and expenditure. Based on the administration agreement it is assessed whether and, if so, which obligations exist in addition to the payment of the annual contribution due to the pension provider as at balance sheet date. These additional obligations, including any obligations from recovery plans of the pension provider, result in expenses for the Foundation and are included in a provision on the balance sheet. Since the Foundation has committed itself and its employees to a 'fixed premium pension scheme' and not to a 'final or middle salary pension scheme' an obligation (provision) for (upcoming) past service is not applicable.

## Results reported against 5 streams

It should be noted that the results of the organisation are reported against the objectives grouped under 5 streams as indicated in the Strategic Intent 2015-2025.

## INDEPENDENT AUDITOR'S REPORT

To: the Board and Supervisory Council of Foundation Wetlands International.

### A. Report on the audit of the financial statements 2018 included in the annual report

#### Our opinion

We have audited the financial statements 2018, from page 13 up to and including page 22, of Foundation Wetlands International based in Wageningen.

In our opinion the accompanying financial statements give a true and fair view of the financial position of Foundation Wetlands International as at 31 December 2018 and of its result for 2018 in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board.

The financial statements comprise:

1. the balance sheet as at 31 December 2018;
2. the statement of income and expenditure for 2018; and
3. the notes comprising a summary of the accounting policies and other explanatory information.

#### Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the 'Our responsibilities for the audit of the financial statements' section of our report.

We are independent of Foundation Wetlands International in accordance with the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### B. Report on the other information included in the annual report

In addition to the financial statements and our auditor's report thereon, the annual report contains other information that consists of:

- the Board's report;
- annexes on page 39 up to and including page 71.

Oranje Nassaulaan 1  
1075 AH Amsterdam  
Postbus 53028  
1007 RA Amsterdam

Telefoon 020 571 23 45  
E-mail [info@dubois.nl](mailto:info@dubois.nl)  
[www.dubois.nl](http://www.dubois.nl)  
KvK nummer 34374865

Based on the following procedures performed, we conclude that the other information is consistent with the financial statements and does not contain material misstatements.

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing these procedures, we comply with the requirements of the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements. Management is responsible for the preparation of the other information, including the Board's report, in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board.

### **C. Description of responsibilities regarding the financial statements**

#### **Responsibilities of the Board and the Supervisory Council for the financial statements**

The Board is responsible for the preparation and fair presentation of the financial statements, in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board and the Policy rules implementation of the, the Board is responsible for such internal control as the Board determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, the Board is responsible for assessing the foundation's ability to continue as a going concern. Based on the financial reporting framework mentioned, the Board should prepare the financial statements using the going concern basis of accounting unless management either intends to liquidate the foundation or to cease operations, or has no realistic alternative but to do so.

The Board should disclose events and circumstances that may cast significant doubt on the foundation's ability to continue as a going concern in the financial statements.

The Supervisory Council is responsible for monitoring the financial reporting process of the organization.

#### **Our responsibilities for the audit of the financial statements**

Our objective is to plan and perform the audit assignment in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not detect all material errors and fraud during our audit.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgement and have maintained professional scepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements.

Our audit included e.g.:

- identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the foundation's internal control;
- evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board;
- concluding on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the foundation's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause an organization to cease to continue as a going concern;
- evaluating the overall presentation, structure and content of the financial statements, including the disclosures; and
- evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.

Amsterdam, 5 July 2019

# Association Wetlands International

## Annual Accounts 2018

## Introduction

In this section, both the accounts for the *Vereniging Wetlands International* (the Association) as well as the consolidated figures of the group consisting of *Vereniging Wetlands International* and *Stichting Wetlands International* (the Foundation) are presented.

The consolidated figures are a simple addition of both individual accounts after removal of cross-posts. As all implementation activities are executed in the *Stichting Wetlands International*, most substantial information on results and finances are presented in the *Annual Accounts of Stichting Wetlands International*.

The *Vereniging Wetlands International*'s finances mainly consist of the income from membership dues, the subsidy to the *Stichting Wetlands International*, in line with the *Vereniging Wetlands International* statutory objective, and the implementation of the Financial Reserves Policy, see below.

Total revenue reported represents the nett income from members and a small amount of other income. The organisation collected more contributions but the General Members Meeting (GMM) decided on transferring some contributions to other Wetlands International offices.

## Financial Reserves Policy

Association and Foundation have adopted the following Reserves Policy (Decisions GMM 16.6 and SC 53.05):

- a. Association and Foundation aim for a combined minimum continuity reserve of € 1.000.000 in total.
- b. In addition, we follow the VFI guidelines of not having a reserve that extends 1.5 times the annual fixed organisational cost;
- c. The Association will also reserve € 35,000 annually for the tri-annual General Members Meetings as of 2011. Since no GMM meeting took place the addition to the General Members Meeting reserve has been lower in 2018. The next GMM meeting will be planned in the end of 2019.

As Wetlands International is largely dependent on project funding, it needs a capacity to deal with cash flow distress. Therefore, Wetlands International, Foundation and Association, hold a minimum position of the continuity reserve. The continuity reserves are meant to cover short term risks and to ensure that the organisation has a buffer to respond to its obligations in the long term. Furthermore, the reserves are savings that are used to invest in strategic and institutional development.

## Explanatory Notes to the Balance sheet As per 31 December (in Euros)

### (1) Debtors and other receivables

	31-12-2018	31-12-2017
<b>Memberships contributions</b>		
- Governmental contributions <2018	0,00	72.072,82
- Governmental contributions 2018	134.876,61	
Provision for doubtful debtors	-48.743	-11.654
<b>Total debtors</b>	86.133	60.419
<b>Current Account with Foundation Wetlands Int.</b>	118.608	149.181
Total	<u>204.742</u>	<u>209.600</u>

Contributions outstanding form more than 1 year are amortized

For contributions outstanding 2 years or more, the policy is maintained to institute a provision for 100% because in practise it is impossible for the Association to enforce such payments

### (2) Cash & banks

	31-12-2018	31-12-2017
Current account EUR	135.225	126.922
Deposit accounts EUR	619.129	619.129
Total	<u>754.354</u>	<u>746.050</u>

All liquidities are available on demand

### (3) Continuity reserve

	31-12-2018	31-12-2017
Balance 1 January	832.322	920.158
Transfer from GMM reserve	0	0
Increase/Decrease	21.708	-87.836
Balance 31 December	<u>854.030</u>	<u>832.322</u>

The result in the Association's annual account is added/subtracted to/from the continuity reserve, in accordance with the organisation's reserves policy as annexed

### (4) General Members meeting reserve

	31-12-2018	31-12-2017
Balance 1 January	88.000	70.000
Dotation	11.000	18.000
Withdrawal GMM costs	0	0
Withdrawal surplus transfer to continuity reserve	0	0
Balance 31 December	<u>99.000</u>	<u>88.000</u>

Yearly a fixed amount is added to this reserve in order to cover the costs of the, relatively expensive face-to-face General members meeting. Next meeting expected to take place in 2019.

### (5) Short term debts

	31-12-2018	31-12-2017
Other liabilities	6.066	13
In advance received donor funds	0	35.316
Current Account with Foundation Wetlands Int.	0	0
	<u>6.066</u>	<u>35.329</u>

## Explanatory Notes to the Statement of Income and Expenditure (in Euros)

### (6) Income

Income consists of membership contributions from NGO members and Governmental members.

	<b>31-12-2018</b>	<b>31-12-2017</b>
Governmental members 2018	509.849	507.371
NGO members 2018	17.934	17.894
	<u>527.783</u>	<u>525.265</u>

# General Accounting Principles

The financial statements are prepared according to the following principles:

## General

The annual accounts 2018 have been drawn up according to generally accepted accounting principles in the Netherlands and RJ 650 for Fundraising organisations. Assets and liabilities in the balance sheet are valued at nominal value. Cash and bank balances are freely disposable, unless stated otherwise.

Transactions in foreign currencies are recorded using the rate at the time of the transaction. Assets and liabilities denominated in foreign currency are converted at the exchange rate at the year-end. Income and expenditure are accounted for in the year the obligations are related to. Costs are determined in accordance with the accounting policies applied to the balance sheet.

Accounting principles for the different elements of balance sheet and statement of income and expenditure are explained in the notes.

## Provisions

The organisation makes a provision for the for the tri-annual General Members Meetings (GMM). This provision is depleted in the year the actual meeting is held to finance the costs incurred in that year.

## Use of estimations

During the process of compiling the annual accounts the management of the organisation makes, in accordance with general accepted accounting policies, some estimations and assumptions which are contributory to the included amounts. The actual results can deviate from these estimations.

## Principles of consolidation

The consolidated financial statements include the financial statements of the Association (*Vereniging Wetlands International*) and the Foundation (*Stichting Wetlands International*). All intercompany transactions, balances and gains or losses on transactions between these organisations are eliminated as part of the consolidation process.

## INDEPENDENT AUDITOR'S REPORT

To: the Board and General Members' Meeting of Association Wetlands International.

### A. Report on the audit of the financial statements 2018 included in the annual report

#### Our opinion

We have audited the financial statements 2018, from page 27 up to and including page 35, of Association Wetlands International based in Wageningen.

In our opinion the accompanying financial statements give a true and fair view of the financial position of Association Wetlands International as at 31 December 2018 and of its result for 2018 in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board.

The financial statements comprise:

1. the balance sheet as at 31 December 2018;
2. the statement of income and expenditure for 2018; and
3. the notes comprising a summary of the accounting policies and other explanatory information.

#### Basis for our opinion

We conducted our audit in accordance with Dutch law, including the Dutch Standards on Auditing. Our responsibilities under those standards are further described in the 'Our responsibilities for the audit of the financial statements' section of our report.

We are independent of Association Wetlands International in accordance with the Verordening inzake de onafhankelijkheid van accountants bij assurance-opdrachten (ViO, Code of Ethics for Professional Accountants, a regulation with respect to independence) and other relevant independence regulations in the Netherlands. Furthermore we have complied with the Verordening gedrags- en beroepsregels accountants (VGBA, Dutch Code of Ethics).

We believe the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### B. Report on the other information included in the annual report

In addition to the financial statements and our auditor's report thereon, the annual report contains other information that consists of:

- the Board's report;
- annexes on page 39 up to and including page 71.

Oranje Nassaulaan 1  
1075 AH Amsterdam  
Postbus 53028  
1007 RA Amsterdam

[www.dubois.nl](http://www.dubois.nl)  
KvK nummer 34374865

Based on the following procedures performed, we conclude that the other information is consistent with the financial statements and does not contain material misstatements.

We have read the other information. Based on our knowledge and understanding obtained through our audit of the financial statements or otherwise, we have considered whether the other information contains material misstatements.

By performing these procedures, we comply with the requirements of the Dutch Standard 720. The scope of the procedures performed is substantially less than the scope of those performed in our audit of the financial statements. Management is responsible for the preparation of the other information, including the Board's report, in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board.

### **C. Description of responsibilities regarding the financial statements**

#### **Responsibilities of the Board and the General Members' Meeting for the financial statements**

The Board is responsible for the preparation and fair presentation of the financial statements, in accordance with the Guidelines for annual reporting 650 "Fundraising Organisations" of the Dutch Accounting Standards Board. Furthermore, the Board is responsible for such internal control as the Board determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

As part of the preparation of the financial statements, the Board is responsible for assessing the organization's ability to continue as a going concern. Based on the financial reporting framework mentioned, the Board should prepare the financial statements using the going concern basis of accounting unless management either intends to liquidate the organization or to cease operations, or has no realistic alternative but to do so.

The Board should disclose events and circumstances that may cast significant doubt on the organization's ability to continue as a going concern in the financial statements.

The General Members' meeting is responsible for monitoring the financial reporting process of the organization.

#### **Our responsibilities for the audit of the financial statements**

Our objective is to plan and perform the audit assignment in a manner that allows us to obtain sufficient and appropriate audit evidence for our opinion.

Our audit has been performed with a high, but not absolute, level of assurance, which means we may not detect all material errors and fraud during our audit.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. The materiality affects the nature, timing and extent of our audit procedures and the evaluation of the effect of identified misstatements on our opinion.

We have exercised professional judgement and have maintained professional scepticism throughout the audit, in accordance with Dutch Standards on Auditing, ethical requirements and independence requirements.

Our audit included e.g.:

- identifying and assessing the risks of material misstatement of the financial statements, whether due to fraud or error, designing and performing audit procedures responsive to those risks, and obtaining audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtaining an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the organization's internal control;
- evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board;
- concluding on the appropriateness of management's use of the going concern basis of accounting, and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the organization's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause a company to cease to continue as a going concern;
- evaluating the overall presentation, structure and content of the financial statements, including the disclosures; and
- evaluating whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant findings in internal control that we identify during our audit.

Amsterdam, 5 July 2019

# Supervisory Council & Board of Association

As per 31 December 2018, the Supervisory Council of the Foundation and the Board of the Association of Wetlands International had the following members:

Start of term	Members	End of term	Supervisory Council	Board of Association	Position(s)
2015	Prof. Emeritus André van der Zande (2 <sup>nd</sup> term)	2018	Chair	Chair	<p><b>Other positions:</b></p> <ul style="list-style-type: none"> <li>• Chairman of The Zuid-Hollands Landscape Foundation (Stichting Het Zuid-Hollands Landschap)</li> <li>• Member of the Board 'De12Landschappen', on behalf of the Zuid-Hollands Landscape Foundation</li> <li>• Member of the Board of the Foundation for Innovation of Peatlands Centre (Stichting Veenweiden Innovatie Centrum)</li> <li>• Member the Advisory Committee Prof. Pieter van Vollenhoven</li> <li>• Member of the General Council of the Foundation for Future in Technology (Stichting Toekomstbeeld der Techniek - (STT))</li> <li>• Member of the Economic Board Utrecht (EBU)</li> </ul>
2014	Prof Dr. Noelle Aarts (2 <sup>nd</sup> term)	2017	Member	Member	<ul style="list-style-type: none"> <li>• Professor Communication and Change in Life Science Contexts, Wageningen University and Research</li> <li>• Professor Strategic Communication (LOGEION chair), Amsterdam School of Communications Research, University of Amsterdam</li> </ul>
2016	Dr Gonzalo Castro de la Mata (4 <sup>th</sup> term)	2019	Member	Secretary	<ul style="list-style-type: none"> <li>• Chairman, World Bank Inspection Panel</li> </ul>

Start of term	Members	End of term	Supervisory Council	Board of Association	Position(s)
2016	Drs. Angelique van de Beeten (2 <sup>nd</sup> term)	2019	Member	Treasurer	<ul style="list-style-type: none"> <li>General Director, Wouter de Graaf Bakeries (per April 2017)</li> </ul>
2015	Prof Kazuaki Hoshino (2 <sup>nd</sup> term)	2018	Member	Member	<ul style="list-style-type: none"> <li>Project Professor, Kagoshima Center for Community Development at Kagoshima University</li> </ul> <p><b>Other position:</b></p> <ul style="list-style-type: none"> <li>Visiting Professor at UNU Institute for the Advanced Study of Sustainability</li> </ul>
<b>2015</b>	Dr Kathy Mackinnon (4 <sup>th</sup> term)	<b>2018</b>	Member (Vice Chair)	Member	<ul style="list-style-type: none"> <li>Chair, IUCN / World Commission on Protected Areas</li> </ul> <p><b>Other positions:</b></p> <ul style="list-style-type: none"> <li>Board Member, Botanic Gardens Conservation International</li> <li>Member, Cambridge Conservation Science Group, University of Cambridge</li> <li>Trustee UN Environment -World Conservation Monitoring Centre</li> </ul>
<b>2015</b>	Dr Dan Martin (3 <sup>rd</sup> term)	<b>2018</b>	Member	Member	<ul style="list-style-type: none"> <li>Consultant in fund-raising and foundation management</li> </ul> <p><b>Other positions:</b></p> <ul style="list-style-type: none"> <li>Trustee, Micronesia Conservation Trust</li> <li>Board of Directors, Environmental Film Festival, Washington, DC</li> <li>Trustee, Knox College</li> <li>Board of Directors, Friends of Costa Rica</li> <li>Board of Directors, Cuso International (Canada)</li> </ul>

Start of term	Members	End of term	Supervisory Council	Board of Association	Position(s)
2014	Dr Eliot Taylor (2 <sup>nd</sup> term)	2020	Member	Member	<ul style="list-style-type: none"> <li>• Team Leader, Implementation Service Provider for Catchment Management, Shire River Basin Management Program</li> </ul> <p><b>Other positions:</b></p> <ul style="list-style-type: none"> <li>• Director, Mott MacDonald Blantyre (Malawi) Ltd</li> <li>• Honorary member of the International Society for Limnology (SIL)</li> <li>• Member of the Freshwater Biological Association</li> <li>• Member of the Chartered Institute of Water and Environmental Management (MCIWEM)</li> <li>• Chartered Scientist (C. Sci)</li> <li>• Chartered Environmentalist (C. Env.)</li> <li>• Chartered Water and Environmental Manager (C. WEM)</li> </ul>
2016	Edward S. Ayensu (2 <sup>nd</sup> term)	2018	Member	Member	<ul style="list-style-type: none"> <li>• Chairman of the Board of Trustees of the African Institute for Mathematical Sciences (AIMS), Ghana</li> </ul>

# Members of the Association – Wetlands International

## Governments

- Bangladesh - Ministry of Water Resources
- Benin Environmental Protection Agency (ABE)
- Chile - Ministry of the Environment
- Ministry of the Environment, Japan
- Hungary - Ministry of Agriculture
- Austria's Federal Ministry of Agriculture, Forestry, Environment and Water Management
- Belgium - Service Public de Wallonie
- India - Ministry of Environment and Forests
- Belgium - Flemish Research Institute for Nature and Forest (INBO)
- Belgium - Brussels Environment IBGE-BIM
- Ireland - National Parks and Wildlife Service
- Kenya - Kenya Wildlife Service
- Malaysia - Ministry of Natural Resources and Environment
- Netherlands - Ministry of Economic Affairs
- Norway - Norwegian Environment Agency
- Pakistan - Ministry of Climate Change
- Slovakia - Ministry of the Environment
- Slovenia - Ministry of the Environment and Spatial Planning
- Sweden - Swedish Environmental Protection Agency
- Switzerland - Swiss Federal Office for the Environment (FOEN)
- Bulgaria - Ministry of Environment and Water
- China - The Convention on Wetlands Management Office
- Denmark - Ministry of the Environment and Food
- Ecuador - Ministerio del Ambiente
- Estonia - Ministry of the Environment
- Finland - Ministry of Agriculture and Forestry
- German - Ministry for the Environment

## Non-Governmental Organizations

- Via Pontica Foundation
- FACE
- Dansk Ornitologisk Forening (DOF)
- Deutscher Jagdverband (DJV)
- National Association of Regional Game Councils
- Vogelbescherming Nederland
- Nigerian Conservation Foundation
- Swedish Ornithological Society
- Schweizer Vogelschutz
- British Association for Shooting and Conservation (BASC)

## Counsellors of Honour - awarded

Michael Moser	1988
Chris Kalden	2002
Max Finlayson	2007
Stewart Morrison	2007
Jan Ernst de Groot	2015
Marcel Silvius	2017

## Management Board of the Foundation

Ms. Jane Madgwick	<p>Chief Executive Officer, Wetlands International, the Netherlands</p> <p><b>Other positions:</b></p> <ul style="list-style-type: none"> <li>• Member of the Governing Body, Wetlands International South Asia Society, India</li> <li>• Council member, Wetlands International, Malaysia</li> <li>• Council member, Fundacion para la Conservacion y el Uso Sustentable de los Humedales, Argentina</li> <li>• Chair, Wetlands International – European Association, the Netherlands</li> </ul>
Ms. Josje Reinartz	Chief Operations Officer, Wetlands International, the Netherlands
Mr. Lifeng Li	Head of Programmes
Ms. Mira-Bai Simón	Head of Communications and Advocacy
